

## NEXT STEP SAFETY PROGRAM

### Virtual 6-Week Safety Manager Boot Camp

Summer 2022 Course - Every Friday - Beginning June 3<sup>rd</sup> - July 8<sup>th</sup> (1:00pm - 4:00pm)

United Safety Professionals' (USP) 6-Week Virtual Safety Manager Boot Camp is our flagship course based on USP's Risk Based Safety (RBS) Management approach. The Boot Camp covers the fundamental concepts of behavior based safety, why effective safety management systems are needed, and why a positive safety culture is a critical operating principle, not just as a regulatory requirement.

The primary elements that define the RBS approach are examined, which address safety policy and procedural design, construction safety, operations safety, and maintenance of an industrial activity safety. Participants primarily from the construction and general industry sectors (as well as other industries) will gain the knowledge to:

- Improve safety management practices;
- Build and operate more effective safety management systems that will fit your company's needs and resources;
- Meet and exceed compliance requirements *[Compliance is not enough. UAS' RBS Approach exceeds regulatory requirements and focuses on the risk that is associated with each operation in order to, protect people, property, and the environment.]*

This highly interactive, fast-paced virtual course is taught by our senior group of certified safety professionals (CSP), Associate Safety Professional (ASP) and Certified Industrial Hygienist (CIH) each with 25+ years' experience. Lecture, videos, case studies, discussion, and breakout sessions are featured within this virtual program. For selected elements, a workshop, exercise, or discussion follows for participants to analyze the concepts presented and participate in group discussions to facilitate information sharing, understanding, and application of the materials.

#### **Prerequisite:**

OSHA 30-Hour Construction, General Industry Outreach or Equivalent certification.

**Course Elements include:**

<b>1. Commit to Safety</b>	<b>4. Learn from Experience:</b>
<ul style="list-style-type: none"> <li>• Behavior Based Safety Culture</li> <li>• Compliance with Standards</li> <li>• Safety Leadership Competency</li> <li>• Workforce Involvement</li> </ul>	<ul style="list-style-type: none"> <li>• Incident Investigation</li> <li>• Measurement and Metrics</li> <li>• Auditing</li> <li>• Management Review and Continuous Improvement</li> </ul>
<b>2. Understand Hazards and Risk</b>	<b>5. Risk Management Assessment:</b>
<ul style="list-style-type: none"> <li>• Compliance Knowledge Management</li> <li>• Hazard Identification and Risk Analysis</li> </ul>	<ul style="list-style-type: none"> <li>• Determine your company's level of Risk Management</li> </ul>
<b>3. Manage Risk</b>	<b>6. ABC Membership Benefits:</b>
<ul style="list-style-type: none"> <li>• Operating Procedures</li> <li>• Safe Work Practices</li> <li>• Asset Integrity and Reliability</li> <li>• Contractor Management</li> <li>• Training and Performance Assurance</li> <li>• Management of Change</li> <li>• Operational Readiness</li> <li>• Conduct of Operations</li> <li>• Emergency Management</li> </ul>	<ul style="list-style-type: none"> <li>• 2-hour In-Person Private Consulting Session for Individuals or Company (Post Course Completion)</li> <li>• Assistance completing ABC S.T.E.P application</li> <li>• Or review with company's current ABC S.T.E.P. program progress.</li> </ul>
